

2017-18 Employer Academy

Technical Assistance Opportunity for Health Care Organizations to Accelerate Investments in Frontline Workers

Overview

The CareerSTAT Employer Academy presents a unique and innovative opportunity for health care organizations to receive technical assistance (TA) in implementing and sustaining business practices and policies that support frontline worker skill development and career advancement.

Organizations may request assistance in a variety of areas including: helping make the business case for increased investment in their frontline workers, developing organizational infrastructure to sustain workforce programming, conducting impact analysis on workforce programs, developing or expanding strategic workforce development plans, or creating targeted frontline workforce programs. Participating employers will receive technical assistance from peer organizations including [CareerSTAT Champion Employers](#), national consultants and from staff at the [National Fund for Workforce Solutions](#).

The Academy is a year-long learning opportunity with customized webinars, coaching, a 2-day in-person session with peers and subject matter experts and an industry-led community of practice for idea exchange. The Academy content will draw from the [CareerSTAT Guide](#), employer best practices, and other relevant resources. During the Academy, each employer will develop or expand their organization's workforce development plans and have the opportunity to apply for matching grant funds to support the work and cover expenses related to site visits. All participants will have the opportunity to share their learning in the Academy with peer organizations.

Target Audience

Eligible employers are designated as "Emerging Champions" through the CareerSTAT Frontline Health Care Worker Champion Recognition program. Ideal organizations have senior leadership support for frontline workforce development but have not yet developed the required infrastructure and/or secured operational support to sustain programming beyond grant funding. They will be interested in conducting some level of impact analysis to help make the case for sustained organizational investment. Up to 10 employers will be selected to participate in the Academy during the 2017 nomination process (December 2016 – February 2017). Previous Emerging Champion employers will be invited to participate and additional employers may be added if needed.

Employer Commitment

Selected employers will have demonstrated some commitment to accelerating or expanding their investments in frontline workers. Each participating employer will commit to having at least one senior staff member engaged. The senior staff member will agree to attend the 2017 National Fund Leadership Convening in Philadelphia, participate in Academy activities including the 2-day in-person session (location TBD), and contribute to the community of practice. Each employer will be asked to complete the following: pre/post Academy self-assessment to determine progress and technical assistance; high-level plan to address identified issue(s); 12-month progress report.

Employers will cover the costs of one person to attend the annual National Fund leadership meetings.

Available Funding

The National Fund for Workforce Solutions will cover travel and accommodations for the 2-day session for one (1) person from each organization (location TBD). Employers may also choose to bring a representative from a community-based organization or their health care workforce partnership to the 2-day session. Travel and accommodations for the CBO or partnership representative will also be covered by the National Fund. Employers and health care industry partnerships may also apply for matching grants of \$10,000 to fund planning activities, site visits or targeted consulting services. There will be a 1:1 cash match requirement for grant recipients. Match funding can be provided by employers, health care industry partnerships, or a funding collaborative.

Post-Academy Engagement

After the Academy, employers will have multiple options for ongoing engagement with the CareerSTAT network. Based on their own experience, CareerSTAT leaders recognize that significant progress on an organization’s workforce development plans, including implementation of programs and policies can take years. As such, CareerSTAT offers ongoing peer learning opportunities that are not specifically cohort-based but rather open to all CareerSTAT network partner, including participation in leadership activities, regional convenings, case studies, webinars, etc.
