SkillUp Washington
Guide and Tools for Navigators

November 2013

SkillUp Washington
C/o The Seattle Foundation
1200 5th Avenue, Suite 1300
Seattle, WA 98101

For more information, please contact: Susan Crane, Executive Director, SkillUp Washington
Phone: (206)388-1670, email: SusanC@skillupwa.org
Webpage: http://www.skillupwa.org/
Thanks to the investments made by the National Fund for Workforce Solutions and SkillUp Washington Funder Collaborative members, we have had a unique opportunity to document, refine and streamline the work of Navigators in the College for Working Adults and Skill Link pilot initiatives. The “Guide and Tools for Navigators” incorporates what we have learned and presents the main principles, tools and practices emerging from this work about the important and influential role that Navigators have on the college and career success of students.

We’d like to thank the many Navigators involved in the College for Working Adults and Skill Link pilot initiatives. Their work and dedication have made a big difference in students’ lives. This guide also reflects the comments and the experiences of the many students who have been involved in these initiatives, as well. Thanks are also due to our other partners, including community colleges, community-based organizations, and workforce intermediaries, whose work helped inspire and influence this guide.

I. Background

SkillUp Washington has funded Navigators through the College for Working Adults and Skill Link projects since 2009. We have reviewed our student assessment and performance data, college faculty, student and employer interviews and other evaluation materials to develop the materials presented in this guide. This extensive review revealed the pivotal role that Navigators play in supporting the college and career access of students engaged in career sector pathways.

We have seen firsthand how Navigators advise and coach students, by incorporating teachable moments into their interactions with students. As coaches (rather than case managers), Navigators provide students with information and self-advocacy support needed to persist in school and transition into the workplace.

As members of teams comprised of students, college faculty, employers and community-based organizations, Navigators are uniquely equipped to advise and recommend ways where the work of system partners can be better coordinated.

The guidelines and tools presented in this guide are meant to strengthen existing navigation systems and equip Navigators to document and use what they learn to inform, coordinate and influence the work of system partners. Please use and adapt these tools as needed, crediting SkillUp Washington. Electronic versions of these tools can be found on our website: www.skillupwa.org.

II. Overview

The Guide and Tools for Navigators is for Navigators who are supporting the college and career success of students.

The guide is intended for Navigators who are working on-site at college campuses or from other non-campus sites or program locations. These materials are designed with the intent that Navigators:

- Work as members of teams, which at minimum include the Navigator, student, college faculty, college staff, employers and community partners; and

Navigators make a huge difference. Instructors can’t do it all. Together we can work to increase student persistence and success.

- College for Working Adults Instructor
• Meet regularly with the team members to discuss student progress, persistence, and eventual employment.

The ability to share data between partners is essential, and should be addressed in the design and development of career pathway programs. This guide is particularly useful for cross campus collaborations, where multiple navigators are focused on coordinating career pathway programs that are focused on the same occupational area or sector, such as manufacturing or business.

The **Guide and Tools for Navigators** describe the Navigator definition, standards of practice, guiding principles and key functions. It can be used by the organization/institution employing the Navigator to create job descriptions and to help guide Navigators as they implement their work. It is intended as a tool for all partners to help position Navigators in strategic ways that promote cross-system collaboration. This guide includes specific tools, including:

• Navigator Environmental Scan (Attachment 1)
• Early Alert Tool (Attachment 2)
• Career Development Tool (Attachment 3)
• Student Life Domain Tool (Attachment 4)
• Student Tracking Tool (Attachment 5)
• Employer Involvement Tool (Attachment 6)
• Navigator Progress Report (Attachment 7)

### III. The Definition of a Navigator

A Navigator is an education and career specialist who assists, coaches and empowers students to develop and pursue post-secondary, career pathway goals and employment.

### IV. Navigator Guidelines

To be optimally effective, Navigators commit to:

> The Navigator helped me get a reduced cost laptop and apply for financial aid. They also got me into a study group with other students and connected me to a community based organization that has transitional affordable housing. Basically they help me put the pieces together so I could earn technology certificates and soon get a job that will support me and my three year old.

- Student
• Supporting the post-secondary persistence and career pathway development needs of students

• Coaching the student to independently and strategically negotiate community, education, and employment resources that support their college and career access and success

• Increasing the involvement of the student and other influential and subject matter experts, including employers, in the student’s education and career decisions

• Minimizing fragmentation and streamlining resources to support student college and career access and success

• Using evidence-based guidelines in the areas of college and career persistence in the daily practice of navigation

• Supporting student transitions to new educational and career settings by increasing students’ knowledge, successful use and access to tuition assistance, financial management resources and tools

• Improving student persistence and career outcomes by utilizing standardized tools and mutually agreed upon “alert” measures to track student progress, and ensure timely interventions to address roadblocks

• Promoting student success by participating in an interdisciplinary team that may include students, family members, employers, college and community based staff

• Expanding the navigator role to collaborate within the community, making timely referrals to community and governmental resources

• Engaging employers, and acting as a liaison among the student, class and employment resources, and garnering feedback necessary to improve student career development outcomes

---

It is so important to intervene early when a student is having trouble. Ongoing communication is important. Students do better in our program because the Navigators work in partnership with the teachers. We work as a team to ensure students get connected to the type of school or community based supports they need. - Navigator
• Documenting the college and career practices, policies and resources necessary to strengthen college and career access, build a navigation system, and participating in timely continuous improvement efforts

V. Navigator Guiding Principles

All Navigators should:

• Use a collaborative and asset-based approach
• Facilitate student self-advocacy
• Practice cultural competency
• Use evidence-based practices
• Promote integration of college and employment access and success principles and shared decision-making
• Facilitate student and employer feedback loops to improve student college and career access and success
• Help navigate the college and workforce systems, prioritizing support during transitions
• Promote outcome measurement and quality outcomes

VI. Navigator Functions

Navigators are responsible for:

• Conducting an environmental scan of the college to identify current provider systems supporting students
• Ensuring that scarce navigator resources are strategically applied and coordinated
• Developing an agreed upon methodology for identifying students who would most benefit from access to navigator resources
• Assisting with program recruitment goals, as defined by sector team partners
• Initial and ongoing assessments, including completing student early alert, life domain, tracking tools and progress reports

When we work with students we build their self-advocacy and self-efficacy skills, and always encourage them to help other peers. That way, students get a chance to apply and hone their skills.

- Navigator
- Student college and career plan development

- Using an asset-based approach to identify and cultivate student leaders, including roles such as peer tutors and/or class champions

- Integrating and coordinating key college and career access and persistence resources, including the provision of support services, when available

- Evaluating student goals and outcomes

- Developing ongoing college and career status and closure reports to identify the status of student progress

- Supporting social networking and learning communities amongst students and connecting them with affinity groups

- Sharing of student progress towards barrier mitigation and progress towards career and college goals with sector pathway team members

- Coaching the student to explore options and make alternative plans necessary to achieve cost-effective desired education and career outcomes

- Incorporating student and employer feedback loops to improve college and career success of students, including the retention of newly hired students

- Playing a critical role as a member of the sector team in the following areas:
  - Start Up Planning
  - Evaluation
  - Curricula Design
  - Recruitment
  - Student Persistence
  - Employer Engagement
  - Marketing
  - Sustainability

---

*The Navigator helped me to get involved in a peer learning community group and the college tutoring program. She also helped me apply for tuition assistance and a childcare subsidy.*

-Student
(Please refer to Attachment 8, the Sector Pathway Planning and Implementation Checklist, which SkillUp has devised in partnership with other Sector Pathway partners to guide the launching and implementation of sector pathway partnerships).

VII. Navigator Data Collection Tools

The Navigator Environmental Scan is divided into two parts: the College Scan and the Certificate/Degree/Training Program Scan (Attachment 1). The Navigator completes these materials with the input of college faculty and staff prior to the launch of a program. These tools are designed to position SkillUp and other partners to be better informed about where to apply and leverage SkillUp Washington and other partner resources, given the information gleaned through the college and labor market scans. They are intended as tools for all partners to use to more effectively coordinate and deploy resources.

The Early Alert Recruitment Tool (Attachment 2) is completed by the Navigator with the engagement and input of numerous college and/or community-based staff, including those focused on tutoring, financial assistance, academic and career advising. This tool is used to identify students who need specialized supports (academic, employment, advocacy, referrals) as soon as possible so that timely interventions occur. At a minimum, these tools are administered prior to enrollment, mid-course and at the end of the program.

The Career Development Tool (Attachment 3) is completed by the Navigator and used to identify the career development needs of students. The Navigator documents interventions, and/or referrals made to promote the job readiness skills of students. These tools are administered prior to enrollment, mid-course and at the end of the program.

The Student Life Domain Tool (Attachment 4) is completed by the Navigator in partnership with the student and used to assess student vulnerability in different areas (childcare, financial management, housing, physical health, transportation or employment) that may influence student persistence and career success. Navigators use this information to document and provide direct interventions and referrals. Navigators may also use this information to develop a student demand-driven electronically accessible resource guide. This tool is completed prior to program start-up, and updated on a quarterly basis, or more often, as needed to reflect students’ changing circumstances.
The **Student Tracking Tool (Attachment 5)** helps navigators document the academic, support service and employer engagement services students received, in tandem with the major outcomes they achieved. This information is used to reflect on what worked/did not work for students in light of their outcomes, and to develop next step continuous improvements in the program, and/or partnerships. The Navigator completes this form each quarter or semester, depending on the design and length of the certificates or course.

The **Employer Involvement Tool (Attachment 6)** is used to document the nature and extent of employer engagement in different courses, certificates and career pathways. The Navigator completes this tool, using input from the student, faculty, employers, and other community partners. This tool is particularly helpful in cross sector pathway partnerships to ensure that employer engagement strategies are streamlined and efficient for employers, students and college faculty.

The **Navigator Progress Report (Attachment 7)** is used to identify how the navigator is supporting student recruitment, course persistence and employer engagement. The information is used to celebrate program strengths and brainstorm next step solutions to address program weaknesses and challenges.

Attachment 1: SkillUp Washington Environmental Scan

SkillUp Washington, as part of its quality management and learning organization approach, is continually striving to identify the best fit between our organization and the external environment. As part of this work, SkillUp documents emerging issues, situations, potential challenges or pitfalls that may affect the quality performance or sustainability of our investments.

The information we gather about education, labor market, college and community partners is analyzed, shared and used to guide planning and implementation. It also serves as a tool for partners to respond in a strategically effective and agile manner to external information.

The attached Environmental Scan tool is completed by the Navigator with the input of college faculty and staff during the planning phase of the program and updated continually.

The Environmental Scan is divided into two parts: Part One: The College Resources Scan and Part Two: The Certificate/Degree/Training Program Scan. The results are shared with program and system partners. This tool is designed to position SkillUp and partners to:

- Be better informed about where to apply and place SkillUp Washington and other partner resources;
- Be more responsive to the college environment and labor market; and
- Understand the environment in which SkillUp is operating in order to more effectively utilize, coordinate and deploy resources for the launch of the program.
SkillUp Washington Environmental Scan

**Part One: The College Resource Scan** provides information about the resources which the student is likely to be able to qualify for and access. Most of these resources will be external to a specific certificate/degree/training program, though a few (such as career advising and internships) may be customized specifically for the program.

*Accessibility refers to hours of operation and eligibility requirements*
SkillUp Washington Environmental Scan, continued

Part Two - The Certificate/Degree/Training Scan provides information about specific aspects of the training program and/or other partner resources and programs available to students. Answers will help navigators and other system partners understand how to strategically leverage and align resources to support student transitions, minimize service duplication and promote sustainability planning.

Part Two: Certificate / Degree / Training Program Scan

1. College name

2. Specific certificate/degree/training program name

3. Instructor name, status (FTE, contract employee, etc.) and affiliation

4. Roles, names and affiliations of other key faculty/staff (including recruiters, lab assistants, navigators, evaluators, etc.)

5. Class names and start and end dates of all classes (current and future) associated with the certificate, degree and training program

6. Certificate/Degree/Training program mode of instruction: (e.g. hybrid, online, compressed, stackable certificates for each course, etc.)

7. Cohort status, if applicable (e.g. open cohort, closed cohort)

8. Targeted demographics of students

9. Special assistance and/or resources available to student population

10. Certificate/degree/training outcomes: e.g.; enrollment, persistence, training-related placements, system reform outcomes, number of credits; specific names and order of certificates received, etc.

11. SkillUp Washington and other funding sources for the certificate/degree/training

12. Gaps which certificate/degree/training funding does not address
13. Proposed methods to address gaps described above

14. Expected types of employment resulting from certificate/degree/training

15. Labor market demand data for the above occupations

16. Names and roles of employer/labor partners

17. Business and labor associations/listservs etc. connected to this certificate/degree/training program

18. Types and amounts of supportive services (bus tickets, etc.) available to students; and eligibility requirements

19. Books/materials/special equipment assistance available to students

20. Free/reduced rate laptops provided to students

21. Technology troubleshooting resources available to students

22. Time and type of tutoring resources available to students

23. Are there other similar certificate/degree/training programs offered in the community?

24. How does this program dovetail/complement/duplicate and coordinate with these other programs?

25. If applicable, what programs feed into this certificate/degree/training program?

26. If applicable, how does this certificate/degree/training program feed into other next step education or training opportunities?

27. Is childcare available during class hours/times students need to be on campus?

28. Are computer labs accessible to students during class hours/times students will be on campus?

29. Is the library open to students during class hours/times students will be on campus?
30. Is the cafeteria open to students during class hours/times students will be on campus?

31. What do you consider to be the level of institutional, employer/labor, public and political will for this certificate/degree/training program?

32. What do you consider to be the most significant strengths that this program offers?

33. What do you consider to be the most significant challenges that this program may encounter?

34. What do you consider to be the institutional, employer/labor; public and political will to sustain the program after funding ends?
Attachment 2: Student Early Alert Tool

The Early Alert Tool is completed by Navigators, with the input of college and/or community-based staff, including those focused on tutoring, financial assistance, academic and career advising. This tool is used to identify students who need specialized supports (academic, employment, advocacy, and referral) as soon as possible. If certain risk factors are indicated an intervention plan is put in place.

This tool is completed by the Navigator prior to enrollment, mid-course and at the end of the quarter/semester.

<table>
<thead>
<tr>
<th>Early Alert Risk Categories</th>
<th>Check if applicable</th>
<th>Intervention Plan (briefly describe Navigator interventions or referrals)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student has training-related incomplete courses on their transcript</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student needs temporary job/and or extensive advocacy or social service supports to be able to attend class</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student experiencing personal crisis</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Other: For example, student faces other challenges (limited English, lack of contact with training related employers, etc.) that potentially jeopardize their course or career success</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student midway through program but lacks financial assistance needed to complete</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student needs intensive job placement support to successfully engage in job search</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student overall self-advocacy skills low</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student needs academic assistance but is not accessing tutoring and/or participating in study groups</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### Early Alert Risk Categories

<table>
<thead>
<tr>
<th>Category</th>
<th>Check if applicable</th>
<th>Intervention Plan (briefly describe Navigator interventions or referrals)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Student needs additional training for basic computing (e.g. Word, Power Point, Excel)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student needs access to reliable technology and/or internet</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student lacks connections with other peers or affinity groups</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student attendance erratic</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student academic performance poor</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student failure to meet internship/special project requirements</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student completed class but is repeatedly applying for and not getting hired to jobs</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Student having trouble passing certification tests</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This early alert system will also be used to identify students who are successful and may be interesting in serving as peer tutors, leaders, or class spokespersons. Navigators continually use strength-based approaches to: (1) coach and motivate students; (2) promote student self-advocacy skills; and (3) connections to education and employment resources.
Attachment 3: Career Development Tool

Navigators, in partnership with instructors and/or other workforce development staff, complete the following checklist as part of the career assessment and planning process for each student.

This tool is completed by the Navigator prior to enrollment, mid-course and at the end of the quarter/semester.

If certain needs are indicated, an intervention plan is put in place.

<table>
<thead>

Attachment 4: Student Life Domain Tool

Introduction
The Student Life Domain Tool helps navigators and other partners identify student barriers to program persistence. This tool is particularly useful with populations of homeless persons, vulnerable young adults, foster youth transitioning to adulthood, offenders re-entering the community, refugees and immigrants newly arrived in the United States, and low-income persons engaged in on-ramp programs.

The Navigator completes the Life Domain Tool, which is used to guide Navigator interventions and student referrals to community and school based resources.

This tool is administered prior to enrollment, and on a quarterly/semester basis. Pre/post assessments of the Life Domain Tool provide insight into how students are progressing on different life domains that potentially influence their ability to persist in programs and thrive when they exit.

Six life domains are outlined in the following document, including childcare, financial management, housing, physical health, transportation, and work history. (If there is an interest in selecting a life domain that is not included in the attached examples, contact SkillUp Washington for examples of different life domains).

This tool is administered prior to enrollment, mid-course and at the end of the program/semester.

Why use the Life Domain Tool?
The Life Domain Tool:

- Tracks the needs and over time status of students on multiple life domains and/or work;
- Allows students and Navigators to set goals to promote student progress on selected life domains;
- Informs referrals to services in different domains;
- Serves as a communication tool for navigators to use with sector team and referral partners;
- Informs strategies to address student barriers;
- Offers students an opportunity to celebrate their progress and see how their work in one domain influences their progress in others; and
- Provides “need” data that can be used for grants, case making for support service funds and/or developing new strategies and partnerships.
How do you use the Student Life Domain Tool?

When using the tool, staff may want to consider two questions:

1. If a student measures below the “prevention line,” what available interventions do we have to provide the student?
2. Do we have gaps in our partnership's ability to promote student progress in different domains? If yes, how do we plan to address these gaps?

Examples of the Life Domains follow. When students receive a 1 or 2 rating they are considered “in crisis” or “vulnerable”, signaling that they are in immediate need of help. Students who receive higher ratings are identified as safe, stable or thriving.

Attachment 5: Student Tracking Tool

The Student Tracking Tool provides an easy way for Navigators to review the academic, support service and employer engagement services students received, in tandem with the major outcomes they achieved. This information is used to reflect on what worked/what did not work for students in light of their outcomes, and to develop next-step continuous improvements in the program, and/or partnerships.

The Navigator completes this form each quarter/semester, depending on the design and length of the certificates or course.

1. Student name
2. Training program name
3. Date student enrolled in training program
4. Date student enrolled in navigation/was assigned to a Navigator
5. Date student completed integrated career/education/work plan
6. Type of academic course persistence support student received
7. Type of personal/life skills support student received
8. Type of employer engagement support student received
9. Number and name of certificates student earned
10. Number of credits student completed
11. Date student completed training program
12. Date and type of training/field of study student pursued
13. Name and date of initial employer job placement
14. Job title of initial employment
15. Wage at placement of initial employer job placement
16. Name and date of second employment site
17. Name and data of second job title
18. Name and data of second job wage
19. Date of exit from program
Attachment 6: Employer Involvement Tool

The Student Employer Involvement Tool is completed at the end of the semester/quarter and used to document the nature and extent of employer engagement in different courses, certificates and career pathways.

The Navigator completes this tool, using input from the student, faculty, employers and other community partners at the end of each quarter/semester.

This tool helps streamline employer engagement activities, and is particularly useful in programs where multiple partners are focused on the same career pathway.

1. Name of course
2. Name of college
3. Name of Navigator
4. Employer name
5. Job title
6. Company
7. Contact information
8. Employer engaged as class speaker/presenter
9. Employer engaged as career mentor
10. Employer engaged in mock Interviews
11. Employer offered tour of worksite
12. Employer donated supplies to class
13. Employer engaged as internship/training site
14. Employer provided job leads
15. Employer hired graduate(s)
16. Employer referred incumbent worker to class
17. Employer paid tuition (full or partial) for incumbent worker
18. Employer gave worker paid time off to take class

Program partners may want to jointly develop a glossary to accompany this list to ensure that tracking processes are uniformly documented and understood.
Attachment 7: Navigator Progress Report

College Name: ______________________________________
Date: _____________________________________________

Navigator Name: ____________________________________________

Navigators complete progress reports at the end of the quarter/semester. The information on this report is used to identify program strengths and weaknesses in three areas: student recruitment, student course assistance and employer engagement. The results guide next step improvements in programs and partnerships.

**Student Recruitment**

1A. Please briefly describe your recruitment efforts to date, including any partner agencies or other classes you worked with to enroll students in navigation services.

1B. What, if applicable, were your one or two most successful recruitment strategies?

1C. What, if applicable, were your one or two main challenges to successful recruitment?

**Student Course Persistence**

2A. Please briefly describe the types of course persistence assistance you provided students.

2B. What, if applicable, were your one or two most successful course persistence strategies?

2C. What, if applicable, were the one or two main course persistence challenges students’ encountered?

2D. Are students choosing to pursue advanced training? Why or why not?

**Employer Engagement**

3A Please briefly describe the employer engagement strategies you used this quarter.

3B. What, if applicable, were your one or two most successful employer engagement strategies?

3C. What, if applicable, were the one or two main employer engagement challenges you encountered?
3D. Are students getting hired to training related jobs? Why or why not?

3E. Have you received any feedback from employers or students about how students are doing after entering employment? Please explain.

Resource/Training Needs

4A. Are there any resources or training that would help you in your job?
Attachment 8: Sector Pathway Planning and Implementation Checklist

A review of SkillUp’s previous sector pathway training experiences to date suggests that the following elements need to be in place to support successful cross-campus and cross-system implementation.

Start-up Planning

- MOUs/Partnership agreements
- Fiscal agreements
- Data agreements
- Schedule ongoing cross-college/partner meetings
- Sector team faculty and staff (instructors, curricula development, workforce development, financial aid, institutional researchers, financial aid, students services, etc.), workforce investment act partners, community based organizations and navigators to inform the design of project goals, objectives and outcomes
- System partner buy-in to project goals, objectives and outcomes
- Staff training and orientation to model goals, objectives and outcomes
- Realistic Work Plan and Project Timeline
- Coordination of campus course offerings to reach a broader audience
- Analysis of the target population composition on cohort management, service delivery and partnerships
- Completion of college navigators environmental scan

Evaluation

- Theory of change outlined with clear assumptions, activities and outcomes
- Evaluation training for all staff and partners
- Front end evaluation plan in place, followed by regular time to review evaluation findings and make mid-course changes as needed to improve services
- Stakeholder (faculty, student, employer, staff) surveys, interview instruments developed, piloted and refined as needed
Confidentiality tools, consent forms and protocols in place, and included in evaluation training
Evaluation findings disseminated to partners, current and prospective partners
Establishment of a closed network or other vehicle for sharing effective and evidence-based research among college partners to promote continuous learning and program/system improvement
Ongoing journaling of key events, milestones and reasons for changes and next steps

Curricula Design

Systematic utilization of student, faculty, staff, employer feedback, course persistence and evaluation data for course planning and continuous improvement
Incorporation of previous graduate feedback to improve course design
Utilization of labor market data to inform curriculum design
Contextualized Math and English
Inclusion of opportunities for contextualized workplace experiences (job shadows, internships, capstone projects, etc.)
Inclusion of opportunities for students to develop career plans, portfolios containing samples of their work product in course syllabus
Prior Learning Assessment
Opportunities for ongoing faculty development

Recruitment

Front end and ongoing recruitment to ensure full course enrollment
Timely provision of financial assistance and pre-enrollment coaching to prep students for the course
Recruitment goals that anticipate and plan for attrition at every stage
Opportunities for potential candidates to see a class in person or on video
“Student Friendly” handouts and informational materials that present a crosswalk between labor market demands, course competencies, career access and advancement
Identification of “anchor recruiters” including previous graduates, employers and CBO partners

- Use of social media and Twitter to recruit students
- Outreach to previous dropouts to see if they are ready to re-enroll
- Automatic pre-registration for students enrolled in multiple courses to promote continued engagement
- Continued coordination of campus offerings to ensure timely and ongoing recruitment efforts

**Student Persistence**

- Holistic “early alert” system tools and strategies to identify student academic and life circumstance persistence barriers
- Ongoing communication among Navigator, Instructor and Student
- Opportunities for ongoing career development and exploration activities
- Guidelines for students to form and manage peer learning groups
- Qualified and timely tutoring assistance
- Access to working and fully operational computers, internet and technology troubleshooting
- Resources to cover course books and materials
- Attainment Fund and/or referrals to closely aligned community partners who have emergency resources to support student persistence barriers (such as transportation, energy assistance, housing assistance)
- Connection to work study and/or income earning opportunities necessary to support the student while in school
- Tuition/Financial Aid Assistance
- Incentives (recognition, leadership opportunities) to promote and reward student success
- End of course transition plans that articulate next step career/education goals of students
Employer Engagement

- Involvement of employers in identifying their labor market, hiring, course content, recruitment, marketing and career mentoring needs
- Identification of employer opportunities to offer advancement training and/or paid or unpaid work release for incumbent workers to take courses
- Identification of employer research and capstone project needs
- Employer Engagement Tracking System
- Engagement of employers in developing career pathway lattices and ladders that show the types of jobs graduates may be positioned to pursue and the competencies needed to advance from these careers
- Aligned efforts across sector partners to reduce duplication and expand the employer network
- Identification of on ramp to work opportunities that may include On-Job-Training, pre-apprenticeship, temporary employment, or other approaches
- Connect course students and graduates to WIA/WorkSource, Industry Associations, and/or apprenticeship opportunities as appropriate for career exposure and employment
- Single point of contact at each college to build and maintain meaningful relationships with employers, coordinated across District
- On-boarding process in place for employers to sign up for internships, mock interviews, and other engagement opportunities
Marketing

☐ Marketing Plan in place and updated regularly
☐ Consistent use of cross college marketing and messaging about the class
☐ Ongoing incorporation of evaluation findings in marketing updates to funders, and policymakers
☐ Research publication and conference presentation strategy in place
☐ Use of social media and Twitter to market courses
☐ Ongoing collection of photographs/course materials that depict the course approach, content, career path, etc. and can be used in presentations and reports

Sustainability

☐ Sustainability Plan in place and updated regularly
☐ Dissemination Plan in place and updated regularly
☐ Dissemination of project reports and findings to past, current and prospective funders
☐ Continued scan of the funding landscape to determine ongoing opportunities to align, coordinate, leverage or apply for funding
☐ Continued scan of the employment success of graduates in tandem with labor market scans to look at program performance measures in tandem with labor market data.
☐ Develop cost analysis of project implementation
☐ Develop a return on investment case for the project to use in case making.
☐ Identify policy or funding levers that may be manipulated to sustain or draw new funding.
For questions about the Guide and Tools for Navigators or to request additional Life Domains, please contact SkillUp Washington at skillupwa@skillupwa.org. To access links to electronic copies of the Guide or for Excel versions of the Guide Tools, please visit www.skillupwa.org.
